

# One thing I love about Leicester...

...is its people. I've been here for over 60 years and the only time I've ever left the city was to collect my MBE from the Queen. I'm proud to say I've never missed a day's service in the 45 years I've worked at the station. It's my second home and my customers make me so happy. I've never had a bad day in Leicester, which is why I believe 'happiness within' is the secret to good health. Keep happy, keep smiling.
