

Dead animals and dog fouling

Cleansing Services deal with the following animal related problems:

F.I.D.O

Cleansing Services Faeces Intake Disposal Operation (F.I.D.O) machine is the modern way to remove dog faeces cleanly and safely.

Dead animals

When animals are killed on the road we provide a collection and disposal service. In certain other circumstances, where there is a dead animal inside a property, it may be possible to make arrangements for us to collect the animal if it is bagged and put outside ready to be collected, by prior arrangement.

Dead animals removed from the public highway are scanned for a microchip to locate a possible owner.
