Please see page 2 for further information.

**Please Be Aware**

The numbers detailed above, which begin with e11\* are the TYPE APPROVAL numbers issued in respect of each model of vehicle that has been adapted for use as a hackney carriage. The relevant number, DETAILED IN FULL, will be found on a small plate or sticker which is normally affixed to the door pillar immediately behind the driver's seat. On a few vehicles, the plate or sticker may be attached to the door pillar behind the front passenger seat or on the trailing edge of one of the front doors.

Furthermore, ALL vehicles purchased MUST:-

1. be less than five years old, judging by the date of first registration detailed on the log book.
  2. be sprayed black.
  3. bear the Council's coat of arms – large transfer on bonnet and small (x2) on front doors; these can be obtained from the Vehicle Testing Station or Licensing Section.
  4. vehicles with sliding passenger doors must have an approved visible warning system at the rear to indicate to other vehicles that a door is open and that a passenger may be alighting. This would normally be a light-up warning sign situated on the rear of the hackney carriage, stating that the doors are open.
- If a hackney carriage is already licensed by this Authority, you may transfer the vehicle to a new owner – BUT it must be currently licensed.
