## **LGBT support**

Sex and relationships can be confusing for all young people (and adults).

We know that sometimes young people question their own and other sexuality or they are curious about new feelings.

We also know that Lesbian, Gay, Bisexual and Transgender (LGBT) young people face many forms of discrimination and we as a youth service want to (and will) challenge this.

We provide a safe space for young people to be themselves and opportunities to discuss, share and learn about the LGBT community.

Not only will we help you explore your own feelings and thoughts, we can direct you to [the LGBT Centre in Leicester.](#)
